

**NEW!**

**SERIES V LARGE AWG  
VFD CABLES**

**INTRODUCING...**

**SERIES M LARGE AWG VFD CABLES  
NOW IN SIZES FROM 1 AWG TO 4/0**

The Alpha Wire SERIES V Enhanced Design VFD cable family has been expanded to include five new conductor sizes; 1 AWG, 1/0, 2/0, 3/0, and 4/0. These cables retain the specially formulated cross-linked polyethylene (XLPE) insulation which provides superior corona resistance, low capacitance as well as excellent low temperature properties.

These new large AWG VFD cables also feature a symmetrical design with the bare copper ground wires placed in the interstices of the conductors. This results in uniform conductor to ground capacitance and impedance. The benefit of this arrangement is that it minimizes the probability of motor damage from common mode current flow. An additional feature is the dual layer copper tape shield that provides 100% shielding with low shield impedance.

Alpha Wire large AWG VFD cables conform to numerous industry standards; MSHA, UL 1000V Flexible Motor Supply Cable, UL Type TC-ER, UL Direct Burial, UL Type XHHW-2, CSA AWM I/II A/B FT-4, IEEE 1202 /383 Flame Tests, CE, and EU RoHS. Additionally, these cables are suitable in Class I & II: Division 2 hazardous locations where the round outer jacket helps ensure a good seal with glands and grommets where IP67 requirements must be met.

MSHA**

**THE ULTIMATE VARIABLE FREQUENCY  
DRIVE CABLE CONNECTION SOLUTION**

**CHOOSE SERIES V SYMMETRICAL DESIGN 3  
CONDUCTOR VARIABLE FREQUENCY  
DRIVE CABLES FOR:**

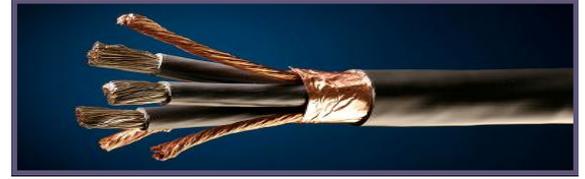

- Interconnection of Variable Frequency Drive Systems and Motors For Extended Duty Cycle Performance Requirements
- Low Capacitance for Improved Signal Transmission
- Elimination of Downtime from Cable Failure
- Oil Resistance
- Improved Cable Life
- Longer Cable Runs

**SERIES V SYMMETRICAL DESIGN  
3 CONDUCTOR VARIABLE FREQUENCY  
DRIVE CABLE APPLICATIONS:**

- **UL Exposed Run (-ER) Compliant to NEC Section 336.10 (7)**
- Multi-Axis Control Systems
- Automotive Assembly Equipment
- Robotics
- Machine Tools
- Stationary Track/Tray
- Conveyor Systems
- Factory Equipment Interconnects

**AVAILABILITY:**

- In Stock: Bulk, Cut to Length

**CHARACTERISTICS**

**OPERATING TEMPERATURE:**

- -40°C to 90°C (UL: Wet or Dry)

**VOLTAGE RATING:**

- UL Listed Type TC-ER 600 Volt
- UL 1000 Volt Flexible Motor Supply Cable

**COLOR DESCRIPTION:**

- Color Code: Conductors 1, 2, and 3:  
Black Insulation with Alpha Numeric Printing  
(Example: 1 - One)
- Jacket Color: Black

**PRODUCT DESCRIPTION:**

- Conductor: Stranded Tinned Copper
- Insulation: XLPE (Cross-Linked Polyethylene)
- Ground Wire: Stranded Bare Copper
- Shield: Dual Spiral Copper Tapes

**SPECIFICATIONS:**

- UL Standard 1277, Type TC-ER, 90°C, 600 Volt
- CE-LVD: 73/68/EEC Amend. 93/68/EEC
- UL Exposed Run (-ER)
- UL Direct Burial
- UL Sunlight Resistant
- UL Type XHHW-2
- UL 1581 Vertical Tray
- UL 1000 Volt Flexible Motor Supply Cable
- CSA FT-4 Vertical Tray
- CSA AWM I/II A/B XHHW-2 Singles
- IEEE 1202/383 Vertical Tray
- MSHA
